

SMART HOUSING

Build Smart House And Be Assured

Features

- ✓ Low Cost
- ✓ Eco Friendly
- ✓ Earthquake Resistance
- ✓ Energy Saving
- ✓ Fire and Sound Proof
- ✓ Weather and UV Resistance
- ✓ Shorter Construction Time

WHY WE ARE HERE?

Nepal lies in an earthquake sensitive zone. The last earthquake of 7.9 Richter Scale that shook Nepal, destroyed many buildings and infrastructures. So, the country needs to rebuild structures that could withstand the future earthquakes.

In response to that GA Smart Housing introduces the earthquake resistant pre-fabricated houses in Nepal partnering with a Chinese Manufacturer for supplying energy saving, low-cost building materials. This is one of the initial projects of GA Smart Housing.

WHAT ARE PREFAB HOUSES?

Prefab houses are houses made with easy to install building parts that are manufactured and provides many options for customization. Prefabricated houses offer more sustainable solution to building and reconstruction of the country.
